

# Fire Safety Made Easy

"One pouch, squeeze... Fires Freeze"

## Fire Risks

Every day, fire destroys lives, homes, and businesses — sometimes even entire generations. Most household fires start in kitchens, living rooms, bedrooms, and garages, where everyday appliances and activities can quickly turn dangerous.

- Cooking oil fires spread rapidly and uncontrollably.
- Generators and faulty wiring spark fires that wipe out entire households.
- Phone and laptop battery explosions cause painful injuries.
- Fuel and petrol accidents ignite without warning.
- Even electric cars, scooters, and modern 5G city components pose devastating fire risks.

*"Using The Wrong Extinguisher Can Make Fire Worse — Don't Freeze, Be Ready."*

## The Zuff Solution

ZUFF is the world's first ultra-portable fire suppressor — compact, economical, easy to use, and effective against any type of fire.

- Lightweight and intuitive — anyone can operate it, even on their first try.
- Small enough to be close to any fire risk — always ready when you need it most.
- Powerful protection for everyone — bringing life-saving fire safety directly to where it's needed.

With ZUFF, you're never unprepared. It's a simple, effective, and reliable solution that puts fire safety right in your hands.

# Fires Stopped

**Li**  
**LITHIUM**

Lithium Battery Fires

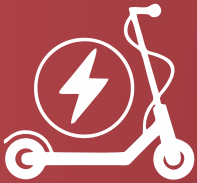

Garden Fires

Household Fires

Workshop fires

Electric Scooter  
Fires

Generator Fires

Car Fires

Petrol & Diesel  
Fires

Boat Fires

Camp Fires

Cooking Oil Fires

Gas Fires

## Easy to Use

*Unscrew the Cap.*

*Squeeze at the base  
of the fire.*

*The fire dies  
instantly.*

# Why Choose ZUFF?

## Any Fire

Works even on lithium battery and grease fires

## Proven Technology

Fluid tested and certified to highest EU standard, EN3-7

## No Maintenance

One-time use, no servicing or refilling required

## Ultra-Portable

Fits in a bag, Car glove compartment, kitchen drawer, or pocket

## Easy for Anyone

No training, no confusion—just open and squeeze

## Affordable

A fraction of the cost of traditional extinguishers

## Required by Everyone

Every home

Every kitchen

Every workplace

Every toolbox and workbench

Every construction site

Every car, truck, train and bus

Every hiker, camper, or caravaner
