The Problem

Fire safety hasn't kept up with how people live and work today.

- Traditional fire extinguishers are large and awkward, which can make people hesitate to use them
- Many people feel unsure how to use them correctly under pressure

- They're often hard to find, out of date, or not within reach when something goes wrong

- Every day fire risks, such as lithium battery fires, kitchen flare-ups, and vehicle incidents, aren't always covered by solutions designed decades ago

The ZUFF Solution

ZUFF is a compact, intuitive fire suppression device designed for non-professional users.

Simple, immediate activation

No maintenance or servicing

Portable and easy to place where risk actually exists

Designed for rapid response in early-stage fires

Where ZUFF Is Used

ZUFF is ideal for environments where speed, simplicity, and accessibility matter:

- ✓ Hotels, homes, apartments, and rental properties
- ✓ Storage areas, garages, and small workspaces

- ✓ Cars, vans, and mixed vehicle fleets
- ✓ Schools, community buildings, and shared spaces

Why ZUFF Is Different

Compared to traditional extinguishers:

- ✓ Smaller footprint
- ✓ No pressure checks or servicing contracts
- ✓ Intuitive operation (no training dependency)
- ✓ Lower lifetime cost
- ✓ Higher likelihood of use in real incidents

***"Zuff Complements, And In
Many Cases Replaces Legacy
Solutions."***

Product Credibility

ZUFF is backed by:

- Controlled manufacturing & quality assurance
- Documented testing and certification pathways
- Clear product specifications
- Defined use cases and limitations
- Product liability insurance coverage

This Is A Consumer Safety Product.

Commercial Model

We support B2B buyers with:

- Volume pricing tiers
- Framework supply agreements
- Fleet / portfolio rollouts
- Optional private labeling (case-dependent)
- Scalable logistics across regions

Why This Matters

For enterprise customers, ZUFF delivers:

-  Easier compliance adoption
-  Reduced training burden
-  Faster response in real incidents
-  Lower total cost of ownership
-  Improved safety outcomes

Why Partner With ZUFF

- ✓ Centralized global brand and IP control
- ✓ Reliable APAC manufacturing
- ✓ Strong quality governance
- ✓ Direct + Amazon distribution capability
- ✓ Long-term supply stability

Next Step

We typically start with:

- Send Some Samples
- POS display
- Flagship Store Trial
- Portfolio Rollout Discussion
